

# Summer at Robbins Children's Programs

Join us this summer as we continue to promote STEAM concepts, encourage creativity and have some fun! Our weekly themes will be supported by road trips to Planetarium, Children's Museum, Patriots Hall of Fame and Fire Station. To continue our tradition, we will partner with Sensata Technologies and try to inspire future scientist and engineers. Children will be able to test their skills in bowling, mini golf, martial arts and music and movement lessons. Animal lovers will enjoy trip to Capron Park and visit from a reptile show and we all show off our talents in our annual Robbins' Got Talent Show. Of course, it wouldn't be a summer without plenty of outdoor activities, going to the pool and having some ice cream!
